Year groups will be split into two “bubbles” at the start of the week and remain in their groups throughout their sessions and not changed.

Sessions will be in 2hrs 30min blocks, taking place entirely outside (unless unsafe to do so). An example activity list is below:

Registration 10mins.

Activate co-op games (socially distanced) with a focus on peer to peer interaction and physical activity 40mins.

Orienteering and outdoor adventurous activities with basic mathematics and problem solving games 40mins.

Break 10mins.

Craft/sport science/forest school sessions aimed at creative thinking and exploration 40mins.

Pack up and collection 10mins.

A register will be marked when children arrive in the morning with parents asked to inform their children exactly who will be picking up and when the child sees that person at the end of the session they will be dismissed and marked off the register.

The register will contain contact numbers and medical information as well the sub group bubbles so we have a record for those who have been in contact with each other.

Any children or staff who develop symptoms during events will be brought away from their group and parents contacted and directed to the track and trace program and they will be sent home and advised to self-isolate for 7 days and arrange to have a test to see if they have COVID-19.

Handwashing and cleaning will be encouraged more regularly with equipment cleaned before and after use and not to be shared during games.

One set of toilets will be used per group and cleaned at the end of each session.

Activities will be outside unless unsafe to do so and minimal equipment used in games. When equipment is used it will be individual and not shared with cleaning before and after use.

Hand sanitizer will be available with children encouraged to bring their own with them for use specifically when dropped off in the morning, if they cough or sneeze into their hands or if they come into contact with equipment or others.

Children will need to bring a drinks bottle and can bring a small snack as well as waterproof coat, hat, sun cream etc. depending on the weather. Those who have an inhaler should also bring that along in a bag with the child's name on it.

Clothing should be comfortable with shoes they are able to run in and should be washed and replaced each day.

Laminated posters will guide parents to collection and drop off points with floor markings also using chalk or tape.
