

**TRANSPORTED**

# CONSULTATION PROGRAMME

Transported is a big arts project taking place across Boston Borough and South Holland over the next couple of years. During July, we have organised an incredible range of arts events and activities of all shapes & sizes led by professional artists and companies, many of whom are from our area. The idea is to give as many people as possible the chance to see something spectacular, have a go at something amazing or maybe just be curious about something unusual... and at every event, a team of Community Researchers is there to talk to as many people as possible about what they think and what they'd like to see next.

As well as the events & activities happening that are listed on this leaflet there will be other unexpected things happening all over the place too, so keep your eyes and ears open for the Transported logo and our specially customised 1969 Ice Cream Van!

We think this a really exciting opportunity for our big beautiful corner of Lincolnshire and we really hope you do too!

## Transported Consortium

Lincolshire Community and Voluntary Service

Supported using public funding by  
**ARTS COUNCIL ENGLAND**
