Information Technology- Software	Mouse Control Mouse control activities (5 activities) http://primarygamesarena.com/Topics/Mouse-Control	Laptop Skills An introduction to the keyboard activity, in which a letter is highlighted, and the pupils are timed to find it and press the key. http://primarygamesarena.com/Play/Keyboard-2030	Mouse Control Mouse control and coordination (6 activities) http://resources.hwb.wales.gov.uk/VTC/incy_wincy/eng/Introduction/default.htm	Laptop Skills BBC Dancemat website for more able or leading into KS1 classroom. 12 stages over 4 levels. https://www.bbc.co.uk/bitesize/topics/2f9j6/articles/z3c6tfr	Mouse Control Interactive mouse games (variety of different games) https://www.themouseclub.co.uk/		
			Speech Recording 1. Provide the children with recording devices in free play/role play areas 2. Children could use the iPad app Chatterpix to record themselves adding speech to characters, pictures, or objects		Photo Creation Discuss the difference between a photo and video and talk about the different devices that both a photo and video can be taken on. Children can use the different technology to take photos and videos of different objects or activities for their work. Try and let the children choose which device to use and explain why they chose it, e.g. digital camera, tablet, laptop, camcorder, mobile phone, etc.
