

Does your child have one of these three symptoms?

New or Persistent Cough    High Temperature    Loss of Taste or Smell

If they do, book a **PCR** test!

***DO NOT*** use a Lateral Flow Test (LFT) as a check.

For anyone with symptoms **ALWAYS** get a PCR Test.

**POSITIVE RESULT:**

Send result to us. Child stays at home for 10 days – from the day the test was taken.

**WHEN at HOME:**

If the child is well, let us know and we will organise work.

If the child is unwell, let us know and we'll only organise work, when they are able to complete it.

**NEGATIVE RESULT**

Send the result to us. Child returns to school (if well enough).

**POINTS to NOTE**

- If anyone has a **positive** lateral flow test, it must be followed up with a PCR Test – and remain at home until the results are known.
- If a person within your household contracts Covid-19, you will be requested to undertake a PCR test, for the whole household. We feel it prudent for children to only return to school, on the outcome of a negative test; if the result is positive, follow the guidance as above.
- When either speaking to the school or leaving a message, about absence due to illness, please give us as many details as possible.
- Staff will contact parents, to collect children, if they notice any of the above Covid-19 symptoms
